'Back plate' and 'Platform'

MADE IN USA 
#HELMETMATE

★ ★ ★
BROCHURE

INSTALLATION INSTRUCTION:-

Contents : 1 Back plate, 1 Platform

Complimentary hardware (Included): 3 screws, 6drywall anchors, 3washers

- Helmet mate™ * has two components, 'Back plate' and 'Platform'. Place 'Back plate' against continuous, flat and sturdy wall (2/3 inch thick) and mark area to drill holes
- Use ¼" drill three holes in markings
- Gently hammer in the drywall anchors (supplied) into the holes
- Align the 'Back plate' on wall and then insert screw and washer through holes and screw in to the wall anchors, (tip: don't use motorized screw driver, hand screw in)
- Once you make sure the 'Back plate' is tightened into wall, then insert 'Platform' from top as shown in final assembly drawing below
- Extra anchors are provided if can you want to move the mount to new location for one more time
- Check more details on www.helmetmatebuy.com

Design patent #29816043,
TradeMark #97060452

This product is designed to attach to drywall or board walls using hardware provided with this product, you however based on your knowledge/ experience and expertise may use different hardware, however product may not perform as intended and you may get different result than product design, warranty on product assumes properly attaching product to wall, and does not include that of the complimentary hardware or voids if failed to secure product on wall or issue with wall integrity or there of any kind
